

Dear Valued Customer:

Searing Industries certifies that the tubular steel products we manufacture comply with Proposition 65 (the California Safe Drinking Water and Toxic Enforcement Act of 1986).

Searing Industries' products do include some chemicals that are listed on the Proposition 65 list. Searing Industries has concluded that our products do not require Consumer Product Exposure warnings because the amount of the chemicals listed by Proposition 65 do not exceed the safe harbor levels.

For more information visit: [www.oehha.ca.gov](http://www.oehha.ca.gov)

Searing Industries will continue to monitor the Proposition 65 regulations for any new chemicals. Newly listed chemicals will be compared with our raw materials and we will communicate this information to our customers.

Richard Searing  
*Executive Vice President of Operations*
